

## **LIBRARY - AUTOMATION**

Automation is a process of utilizing the machineries to ease the burden of work and save human power and time. The main purpose of library automation is to free the librarians and library staff and allow them to contribute more meaningfully by spreading knowledge and Information. NPTC has purchased "**AUTOLIB**" Library software for its housekeeping operations such as administrative work, acquisition, cataloguing, circulation, serial control and OPAC etc.

## **DIGITAL LIBRARY**

There are six computers are available with Internet Connectivity. Staff members and Students can access the Digital library from 9.15 A.M. to 5.45 P.M. during all working days. Students can access the following learning materials from Digital Library.

- NPTEL Video & Web Courses
- E- Resources (Books & Journals)
- National Digital Library of India
- General Subject Reference
